

# Rolec Fire Caddy

*A Cost Effective Solution To Marina Fire Fighting*

The Rolec Fire Caddy is a mobile fire fighting unit which uses sea / river water to fight the fire, eliminating the requirement for expensive pipe work systems. It is also able to mix this water with a concentrated solution to provide a biodegradable fire fighting foam.

The Fire Caddy is an essential piece of marina equipment.

## Product Details:

- Easily manoeuvrable portable unit with rugged 'go anywhere' wheels
- Hot dipped galvanised steel framework powder coated
- 3m water inlet pipe complete with filter
- 20m of Ø52mm lay flat fire fighting hose
- Adjustable spray nozzle
- Delivers water foam at a rate of 400 litres per minute
- Quick assembly pipe couplings
- Variable mix valve to increase foam concentration 1-6%
- Honda petrol engine with 1 hour running time on a full tank
- Projects water or foam from the end of the hose to give a 35m range from the fire caddy
- Mixes sea or river water with concentrate to project a biodegradable fire fighting foam
- Protective storage cover

### OVERALL DIMENSIONS:

1394 (D) x 600 (W) x 750 (H) mm

**MAXIMUM WEIGHT:** 115 Kg

**PRODUCT CODE:** EEAI0010
